Operated for the United States Department of Energy  
by National Technology and Engineering  
Solutions of Sandia, LLC.

ATTENTION: Nora Sackett  
Director, Technology and Innovation Office  
New Mexico Economic Development Department

SUBJECT: Sandia CNM Innovation Hub Grant LOC

September 3, 2025

Dear Ms. Sackett:

Sandia National Laboratories (Sandia) is pleased to provide this letter of commitment on behalf of CNM and CNM Ingenuity's application for the New Mexico Innovation Hubs Grant.

Sandia is committed to supporting the Quantum Communication Node Hub by leveraging its technology transfer programs—such as the New Mexico Small Business Assistance (NMSBA) program and the Technology Readiness Initiative (TRGR) program—to provide technical expertise, prototyping support, and commercialization guidance to startups and small businesses engaged in the Hub. Through these programs, Sandia can help participating companies access laboratory capabilities, accelerate technology maturation, and advance quantum communication hardware innovations toward market readiness. This partnership aligns with Sandia's mission to strengthen New Mexico's innovation ecosystem while fostering workforce development and applied R&D in quantum technologies.

Sandia is a government-owned-contractor-operated facility operated by National Technology & Engineering Solutions of Sandia, LLC (NTESS) for the U.S. Department of Energy (DOE)/National Nuclear Security Administration (NNSA) under Management and Operating (M&O) Contract DE-NA0003525. As a DOE M&O Contractor, NTESS is obligated to offer these products/services to any Non-Federal Entity that wishes to acquire these products/services. Providing Sandia's services to any Non-Federal Entity is subject to DOE review and approval in accordance with DOE policies and regulations.

Sincerely,

David J Kistin  
Manager, Technology and Economic Development  
Sandia National Laboratories
